Huns Must Sign Treaty This Week

Paris.—Distant progress was reported on the reply of the allied governments to the German counter-proposals. The government will be given five days' limit for final action, which will therefore come on or before June 5.

The main feature of this progress was an agreement regarding the reparations terms, which have been the subject of a sharp controversy during the past ten days.

As finally adopted, the terms do not fix the definite amount of reparations, but the commission is required to fix the amount within four months of the signing of the treaty.

The main changes are explanations rather than modifications, in order to meet the contention that the financial commission was vexatious, inequitable on Germany's rights to conduct her own financial affairs.

The revised terms were very much that was open to the construction of being vexatious.

Final action on Germany's request for admission to the League of Nations has not yet been reached, but the discussion is declared to be tending toward an accord.

The Silesian question, which has given difficulty, also has virtually been settled. It is now certain that the revised treaty will not be submitted to a plenary conference with the smaller powers before the reply is sent to the Germans.

The revised treaty and memorandum accompanying the treaty will be sent to Count von Brockdorff-Rosenthall, of the German delegation, by messenger without ceremony.

Hon. Crerar Speaks On The Budget

Is Opposed to Fiscal Policy, While Hon. Calder Is Satisfied

Ottawa.—Members of the commons who anticipated a lively evening of the budget debate because Hon. T. A. Crerar and Hon. J. A. Calder were believed to speak were not disappointed. Mr. Crerar explained that he had dropped out of the government because he found himself in sharp opposition to his colleagues on the fiscal policy, and the only honorable course to pursue was to tender his resignation.

Mr. Calder, on the other hand, maintained that with demobilization is complete the tariff was not an issue. Mr. Crerar objected to the budget because of its protectionist tendencies, while Mr. Calder maintained that he would have been satisfied had no tariff changes been announced this session. He agreed with Sir Thomas Duggan, who said that the tariff was a little later on, whereas Mr. Crerar was of the opinion that it should take place now as a means of helping production and reducing the cost of living.

The ex-minister of agriculture suggested various means of raising revenue, including a tax on unimproved values of land, which, he said, would yield from 70 to 80 million dollars annually.

Mr. Calder emphasized the point that the retirement of other Liberal Unionists from the cabinet would create a political crisis, he asserted that despite the pleadings and even threats of many of his friends, he proposed to follow his own counsel. He indicated his belief that when the principles underlying the revision of the tariff became a matter of course, the cabinet would be able to have arrived for the retirement of the other ministers of the government. Closing, he expressed the fear that a dangerous situation will be created if no effort is made to remove the cleavage between east and west.

Japanese Boycott

Bankers, Merchants and Workmen Lending Support to Movement

Pekin.—The Chinese government is unable to stem the tide of the Japanese boycott movement, being pushed by the students. The bankers, merchants and workmen in Shanghai are lending their support to the movement.

The government decided to release the students arrested several days ago, but the students decided to leave the university in which they are confined unless the chief of police publicly apologizes for the arrests.

Demonstrations in favor of the boycott movement continue without restriction.

Germans Aided Bolsheviks

Helsingfors.—The treacherous attack of German cavalry upon the Estonians when the latter were pursuing the Bolsheviks was under the direct order of General von Der Goltz, commander of the German forces in Letland.

The action unmarks the Germans as secret accomplices of the Bolsheviks and the Estonians will now begin military operations against the Germans.

Answers from over 200 locals of the Saskatchewan Grain Growers' Association to a questionnaire sent by the central office, asking for expressions of opinion in regard to the organized farmers' existing policy, are all in the affirmative.

Rhenish Republic Ready to Pay Share of Cologne.—The Darden president of the new Rhenish republic, has telegraphed Sir William Robertson, commander of the British forces in occupation here, announcing the formation of the republic and repudiating any desire to evade a "just share" in the reparation of war damages. He appeals to the entente powers to protect the new state from inevitable revenge from Prussian militarism.

Rioting in Winnipeg

War Wrecks Injured By Mob and Special Constable Shot

Winnipeg.—Following the first really serious conflict between returned soldier constables acting in place of the regular police force, which was dismissed by the police commission following refusal to pledge themselves to refrain from joining any political parties, seven arrests were made. Serious trouble resulted when a large crowd of strike sympathizers jeered and booed the special constables. The crowd surged into the street, and it was an effort to arrest a path for the constables that led to conflict with demonstrators. One of the mounted constables, Sergeant Frederick G. Copping, winner of the Victoria Cross in the great war, was the only person seriously injured. He was dragged from his horse and severely pummelled before being rescued.

When a squad of special police was dispatched to the aid of their sorely tried colleagues they were met by a hail of missiles, and the police retaliated by a free use of their batons on the heads of demonstrators. The appearance of an avian fall of 200 policemen marching down Main street in platoon formation had a calming effect on the mob, and the rioting ceased as suddenly as it began.

In another clash between a crowd of strikers and four special constables, Constable T. S. Morrison is lying in the hospital with a shot wound through his thigh and body contusions. One of his comrades was struck over the head with a club and knocked unconscious, but is not seriously injured.

Special Constable Morrison was on patrol duty in the vicinity of the Canadian Pacific railway station on Higgins avenue, accompanied by three other officers. A hostile crowd of about 500 men, many of whom are alleged to have been alien strikers, commenced to gather, and for some time continued to surround the constables. The crowd closed around the policemen.

Morrison was the last officer to be disposed of by the crowd, being knocked unconscious by a blow on the back of the head. At the instant that he fell a big man was seen to have a raised club above his head. An automobile then reached the scene, and the driver, seeing the raised club, drew in reverse and fired long shots. The bullet missed the officer and passed through the thigh of Constable Morrison, whom the driver had intended to aid.

At a special meeting of the police commission a resolution was passed requesting the chief of police, Sir James MacPherson, Chris H. Newton, bitherto deputy chief, is now the acting chief.

In a statement issued by the police commissioners it is stated that the commission "deemed it advisable to place the reorganization of the force in charge of Deputy Chief Newton."

Hamelts That Never Can Be Rebuilt

Paris.—Investigations by the commission which is examining the devastated regions of France are confirming the previous evidence that many of the beautiful towns and hamlets of the battle area are so totally ruined that they never can be rebuilt.

Vaux, of immortal fame, has taken its place in the long list, and the mayors of two other historic villages, Dounmont and Fleury, have recently notified their people, who are refugees in various parts of France, that these places cannot be reclaimed.

Not only the soil, but the shape that it cannot be cultivated for many years, but the ruined hamlets are filled with hidden explosives and other dangers.

Protests Against Territory Losses

Paris.—An Austrian note complains strongly against the dismemberment of Austria, particularly the separation of Bohemia and the Tyrol. The note says that Austria cannot survive the loss of her industries. It is added that the Austrian delegation is prepared to send immediately observations on the territorial changes of the peace terms.

Rhenish Republic Ready to Pay Share of Cologne.—The Darden president of the new Rhenish republic, has telegraphed Sir William Robertson, commander of the British forces in occupation here, announcing the formation of the republic and repudiating any desire to evade a "just share" in the reparation of war damages. He appeals to the entente powers to protect the new state from inevitable revenge from Prussian militarism.

Reinforcements for Assistance

Paris.—The Austrian delegation at St. Germain has asked Germany to protest to the allies against the rigor of the peace terms presented to Austria, the Havas Agency says it is informed from a reliable source. The reported action of the Austrians is unfavorably commented upon here.

Inhumanity in Russia

More Stories of Ruthless War Crime From Russian Baltic Provinces

Paris.—Howard Herman at the Baltic headquarters of the relief administration situated at Libau has written to "Paris headquarters a graphic description of the scenes in the Baltic provinces from which the Bolsheviks have been expelled. Describing the conditions he found in Riga, Captain Herman says:

"Among the sights I have seen was the shooting of fifteen Bolsheviks, three at a time, by a German firing squad. It was German efficiency at its best. A ditch was dug by Bolsheviks awaiting trial, and some of the wretches, already condemned, came up three at a time as their names were called."

"The condemned men stood with their heels at the edge of the ditch and with their eyes united, faced their executioners—some had German soldiers—two of whom fired at each condemned man's head and one at each arm. After the last three had tumbled into the hole that had been dug for them, Bolsheviks tried to throw some of the bodies of dirt into the grave, and were then led back to prison."

"Our moving picture operator was terrified by the sight of the men during all this. He had no appetite for dinner after taking a close-up of the open grave."

To Sow Seeds Of Revolution

Bolshevik Secret Agents in Every City Throughout U.S. and Canada

Boston, Mass.—There are over 17,000 Bolshevik secret agents working in the United States and Canada at the present time, according to Gen. Denigol, chief of the National Russian army, who is in Boston on a mission for the Omak government to interest leaders of opinion in the movement to fight Bolshevism in America as well as in Russia, and to help gain recognition for the Omak government by the United States.

Gen. Denigol was head of the technical department of the Russian Ministry of War before the Bolshevik revolution, and was very influential in saving the vast military stores of the allies collected at Vladivostok and elsewhere, valued at over \$20,000,000. He fled from Russia, disguised as a workman, to Siberia via Europe and the United States, where the Bolsheviks gained power, and he is able to help the allies in Siberia.

He declared that there is a Bolshevik doctrine, which is being propagated with stolen Russian gold by means of secret agents in every manufacturing and mining city, and that these agents have divided the two countries into districts, in each of which a soviet is to be established after existing governments are overthrown.

These agents have a number instead of a name, to disguise their identity. And an agent bearing the number 17,000 has been discovered by the Russian committee. Many of them are of Teutonic origin as well as the leaders in the country who adopted Russian names there to disguise their origin. America and Canada must be on their guard to crush out this menace and ferret out the agents, he says.

Reform For Ireland

Prospect of Large Measure of Reform In Sight

London.—The Daily News prints the following from an Irish correspondent: "The prospect of a large measure of reform for Ireland is very bright. As a return for his attitude with regard to the claim of Ireland to be heard at the Peace Conference, the authority of whom I allude states that President Wilson has obtained a very definite undertaking from the Prime Minister that a wide measure of reform for Ireland will at once be taken in hand."

Austrian Appeal for Assistance

Paris.—The Austrian delegation at St. Germain has asked Germany to protest to the allies against the rigor of the peace terms presented to Austria, the Havas Agency says it is informed from a reliable source. The reported action of the Austrians is unfavorably commented upon here.

Germans Fear A Blockade Renewal

Overpayments To Soldiers Found

Inquiry By Public Accounts Committee Reveals Many Errors

Ottawa.—The inquiry by the public accounts committee into overpayments made by the separation allowance and assigned pay branch of the Military Department to soldiers and their dependents was continued, with Mr. T. Cox, chief accountant of the branch, as the chief witness.

Mr. Cox informed the committee that overpayments totalling \$20,000 had been definitely ascertained, but that there are from twenty to twenty-five thousand more soldiers showing overpayments in addition and that the total had not been figured up.

Mr. Vent, who was conducting the inquiry for the opposition, declared that the sum could be ascertained by two clerks with an adding machine in less than a week, but Mr. Cox said it would take his whole staff six days to do the work.

Finally Mr. Cox undertook to do his best to have the figures available for the committee by Wednesday.

The witness had previously explained that when the undischarged soldiers are overpaid, the amount is recoverable from his pay, and when he is discharged the department still has recourse to the soldier's estate.

Private McGraw, 1st Coldstream Guards, was tied to a post for three hours in a snowstorm on December 7, 1914, at Gauran camp and died, early the next day, probably from pneumonia.

Private Skett, 3rd Coldstream Guards, was a prisoner of war at Pains, on the eastern front, and being exhausted after a long march in snow on April 7, 1917, was unable to proceed. He was ordered by a sentry to move on. On replying that he was unable to do so, the sentry deliberately killed him.

Swing Labor Unions For Losses By Strike

Important Question Raised by Suit in Courts of the United States

Pittsburgh, Pa.—The people of Pittsburgh, through A. E. Anderson, an attorney, filed a suit in equity court here against the Amalgamated Association of Street and Electric Railway employees, in which the union is asked to pay damages of \$2,035,000.78, which sum is claimed was paid by the people as a result of the strike of the street car employees.

The suit raises the question of the right of employees engaged in such a service to strike to enforce demands for better pay and improved working conditions. Receivers of the Pittsburgh street railway company are named as party defendants.

A Long Trip

North Bend.—Wm. Reed, of Ottawa, Kansas, arrived here recently with team, wagon and dog. He is following the long trail from Kansas to the Peace River country, a distance of over 2,000 miles. He is not discouraged, though taken down with "flu" en route, and told that his horse would be shot at the boundary and his dog would not be admitted to Canada.

Assist Veterans To Go On The Land

Ottawa.—When Hon. Dr. Beland rose to continue the debate on the budget he was vigorously applauded by members of both sides of the House.

With the war over, said Dr. Beland, Canada's soldiers were now returning to their homes. What the government should do was to help as many of them as who desired to become farmers to settle on the land.

The financial assistance which the government offered to soldiers who wished to settle on the land was not sufficient incentive. He believed the government should give to them a financial policy which would in itself be an incentive.

He wanted free implements. Granted the admission of these necessities to make a home. Dr. Beland stated that the government should be given the right to purchase land for the purpose of settling veterans.

Crimes Charged Against Germany

British War Secretary Announces Some Cases Laid Before Public

London.—Winston Spencer Churchill, secretary for war, announced in the house that the facts in the following cases had been laid before the committee appointed by the attorney-general to investigate alleged violations of the laws of war:

Private McGraw, 1st Coldstream Guards, was tied to a post for three hours in a snowstorm on December 7, 1914, at Gauran camp and died, early the next day, probably from pneumonia.

Private Skett, 3rd Coldstream Guards, was a prisoner of war at Pains, on the eastern front, and being exhausted after a long march in snow on April 7, 1917, was unable to proceed. He was ordered by a sentry to move on. On replying that he was unable to do so, the sentry deliberately killed him.

Railway Shop Workers May Now Strike

Canadian Railway War Board Has Made No Move In Answer to Union Ultimatum

Montreal.—The Canadian railway war board has absolutely nothing to say, either officially or otherwise, regarding the strike ultimatum sent them by the Railway Federated Shop trades, representative of 35,000 workers in all the railways shops of Canada.

The executive committee of the board is in the same position, and has made its statement, which is signed to the members, for a strike meeting at April 7, 1917, in violation of the time limit of the ultimatum or the next move of the railway companies.

Command Riga Gulf

Paris.—(French Wire)—The Council of Four has sanctioned the occupation of Ostia Island, which commands the entrance to the Gulf of Riga, by British troops. The Estonian government agreed on the occupation as a guarantee for the payment of financial aid to the Estonians.

LONDON, June 9.—(Canadian Associated Press).—The offer to Col. Adams, of the medical corps, Montreal, of the vice-chancellorship of Liverpool University, is cordially welcomed by the Manchester Guardian, which describes him as a notable man of affairs who has wide knowledge and many friends outside his own subjects. He may be expected to meet a powerful interest in the growth of Liverpool medical school.

RIO JANEIRO DOCKS BURN; SOME CASUALTIES

BURNING AIRS. June 10.—Dispatches from Rio Janeiro report that fire today destroyed the old Peter II docks. The flames spread to an adjoining hospital, resulting in several fatalities there, and also injuries to a number of patients. The number of casualties was not given in the dispatches. The material damage is declared to have been enormous.

FAMOUS YACHTSMAN DIES

NEW YORK, June 10.—John Hyslop, retired American yachtsman, who, in 1897, measured the Volunteer and Thistle for their races for America's cup, and who officiated as five of these contests, died at his home here today, in his 84th year. He was a member of authority on yachts and framed the measurements which governed yacht racing for many years.

Burdett

Burdett once more to the front in base ball circles. Last Friday evening Burdett was favoured with Sweeney's Base Ball aggregation from Bow Island, who came up with about two hundred enthusiastic fans, with the first intent of winning the Burdett Team of the Base Ball map and also to take away a nice little pile of Burdett money—but alas for the hopes of the aspirations of the Bow Island Team, once more the old proverb "not to count your chickens before they are hatched" was proven to the disappointment of the people from the Town.

"That lights the West" with Gas? the hatch did not materialise; for when the cloud of battle had cleared away and the official marker had to tally up his score-sheet it was found that the score was 15 to 4 in favor of Burdett.

Your scribe regrets the unportant-like attitude of some of the players and supporters of the Bow Island Team.

The cause of true sport is only advanced by a feeling of self-satisfaction on the parts of all concerned and who are sufficiently man to take a beating in the same spirit that they like to win.

It is hoped that the Committee of local Base Ball Teams will see their authority to suppress rowing in connection with any future games.

The motto of all managers should be "Play Ball and quit Deafening."
